### **Home Heating Subsidy**

This is an essential service for the people residing in Chipewyan Lake. Every year, someone must write and submit a proposal to access funding from the BCN Trusts.

Once again, I have taken the initiative, with the help of BCN Trust staff, to submit a Proposal. This year, I have partnered with another Chipewyan Lake member to help with the process. We propose to:

- Once a month, my partner and I will collect the invoices from the Electricity provider of the individual's choice and take them in or fax them to the Trust Accountant for payment.
  - We will authorize one (1) person to cut and deliver wood to those residents who use wood burning stoves and those who want wood for emergency use.
  - We will collect the invoices for wood cutting and delivery from the authorized individual and submit them for payment to the Trust Accountant at the end of each month.
- We will report "change in residency" to the Trust Accountant regularly, so that funding is not wasted on unoccupied houses.
- We will update the Residence list as necessary so that payment is made for the correct resident(s) and they do not receive "Overdue notices" because updates were not completed.
